About me

- I'm a full stack developer. I currently work as a software engineer at Sonrisa Technologies.
As a passionate software engineer, I am always trying to learn new things and look for elegant and simple solutions for current problems, deficiencies. I am mostly interested in modern problem solving, software development and artificial intelligence.

Education

Sapientia Hungarian University of Transylvania

Bachelor's degree - Computer Science - Learning the basics of programming

Sep. 2018 – Jul. 2021

Târgu Mureș, Romania

U-Hub Mentoring Program

Software Engineering course - 100h Learning the basics of Spring Boot

Jul. 2020 – Aug. 2020

Odorheiu Secuiesc, Romania

Experience

Sonrisa Informatikai KFT.

Software Engineer

Sep. 2021 – Present

Budapest, Hungary

- Full stack software engineer mostly working with ReactJS, NodeJS, Typescript and Java.

I have learned what it's like to work within a larger team. Initially, I further developed my frontend skills, and over time, I began working on the backend as well, thus becoming a full-stack developer. As time passed, I continued to grow, and eventually, I was entrusted with smaller projects where I supervised the work of 1-2 developers.

Minic Studio - Summer internship

Intern

Jul. 2020 – Sep. 2020

Odorheiu Secuiesc, Romania

- Developed a web application for tourists, travellers.
Technologies used: ReactJS, Firebase, Google Places API.

I have acquired the skills of collaborating within a team, utilizing Git, initiating merge requests, mastering the review process, and effectively utilizing Jira.

Digitális Kaláka - 48h Hackathon

Hackathon participant

Nov. 2020

Odorheiu Secuiesc, Romania

- Developed an android mobile application for local traders. used: Kotlin, Firebase.

My work

johnhair.ro - Shopify webshop

Side project - 2023

- Shopify webshop

- › Webshop (with some CMS functionalities) for purchasing essential oil products.

Sapifeedback

Bachelor thesis project - 2021

- › Web application for giving, collecting, analyzing anonymous feedbacks.

Certificates

Cambridge English Certificate B2 First

DataCamp Certificate Supervised Learning with scikit-learn

DataCamp Certificate Unsupervised Learning in Python

DataCamp Certificate Cleaning Data in Python

Skills

- › I'm a developer with a strong foundation in both frontend and backend technologies.
On the frontend, I specialize in creating captivating user interfaces using Typescript and React ensuring responsiveness and a seamless user experience. On the other hand, I have an understanding of server-side development with NodeJS and Java, utilizing frameworks like Spring Boot to build robust, scalable applications.

Languages Typescript, Python, Java, SQL, GraphQL

Frameworks React, Node, Spring Boot

DB Firebase, MongoDB, Neo4j, Elasticsearch, Liquibase

Tools Git, Docker, Grafana, Postman, SourceTree, ngrok, VSCode, IntelliJ

Other handlebars, Redux, ExpressJS, NestJS, MUI

Languages Hungarian - mother tongue, English - B2 , Romanian - B1
