## About me

- I'm a full stack developer. I currently work as a software engineer at Sonrisa Technologies.  
As a passionate software engineer, I am always trying to learn new things and look for elegant and simple solutions for current problems, deficiencies. I am mostly interested in modern problem solving, software development and artificial intelligence.

## Education

### Sapientia Hungarian University of Transylvania

Bachelor's degree - Computer Science

Sep. 2018 – Jul. 2021

Târgu Mureș, Romania

### U-Hub Mentoring Program

Software Engineering course - 100h

Jul. 2020 – Aug. 2020

Odorheiu Secuiesc, Romania

## Experience

### Sonrisa Informatikai KFT.

Software Engineer

Sep. 2021 – Present

Budapest, Hungary

- Full stack software engineer mostly working with ReactJS, NodeJS, Typescript and Java.

### Minic Studio - Summer internship

Intern

Jul. 2020 – Sep. 2020

Odorheiu Secuiesc, Romania

- Developed a web application for tourists, travellers. Technologies used: ReactJS, Firebase.

### Digitális Kaláka - 48h Hackathon

Assistant (to the) Regional Manager

Nov. 2020

Odorheiu Secuiesc, Romania

- Developed an android mobile application for local traders. Technologies used: Kotlin, Firebase.

## My work

### [johnhair.ro](#) - Shopify webshop

Side project - 2023

- Shopify webshop

### [oilspower.ro](#) - webshop

Side project - 2022

- Webshop (with CMS functionalities) for purchasing essential oil products.

### [Sapifedback](#)

Bachelor thesis project - 2021

- Web application for giving, collecting, analyzing anonymous feedbacks.

### [PlanAt](#)

Summer internship project - 2020

- > Developed a single-page web application for recommending places around the world based on the user's interests with Google Places API.

## Certificates

**Cambridge English Certificate** B2 First

**DataCamp Certificate** Supervised Learning with scikit-learn

**DataCamp Certificate** Unsupervised Learning in Python

**DataCamp Certificate** Cleaning Data in Python

## Skills

- > I'm a developer with a strong foundation in both front-end and back-end technologies. On the front-end, I specialize in creating captivating user interfaces using ReactJS, MUI and I'm adept at ensuring responsiveness and a seamless user experience. On the back-end, I have a deep understanding of server-side development with NodeJS and Java, utilizing frameworks like Spring to build robust, scalable applications. My expertise also extends to TypeScript for enhanced front-end development. I excel at bridging the gap between design and functionality, creating cohesive and efficient web applications.

**Technologies** Typescript, ReactJS, NodeJS, Redux, Java, Python, SQL, Docker, Firebase, MongoDB, Neo4j, Grafana

**Tools** Postman, Git, SourceTree, Jira, ngrok, VSCode

**Languages** Hungarian - mother tongue, English - B2 , Romanian - B1
